Research participation · choose ONE option before starting

Name: _____ Group: _____ Date: _____

Your answers, scores and essay may be analysed for vocabulary-learning research. Participation is voluntary. Taking the test without participating does not affect your grade. Your name is used for teacher assessment; research reporting will not identify you. You may ask your teacher to withdraw your research data before anonymisation.

[ ] I agree to participate in the research.

[ ] I want to take the test without participating in the research.

Evolve 6 · Unit 7 · Reading preview

If you agreed to participate in the research, read this preview when your teacher tells you. If you chose not to participate, skip this page. Do not consult the preview during the test.

When Maya began researching her ancestry, she discovered that her great-grandmother had moved abroad at nineteen. Among the family's possessions was a small relic from that journey: a handwritten recipe book. Maya decided to prepare some of the dishes for a family feast, hoping to reinvigorate a tradition that had almost disappeared. As relatives shared their memories around the table, she began to understand the significance of those recipes: they preserved a part of the family's heritage that official records could never capture.

RT1 · Evolve 6 · Unit 7

Group 213 · Test Version A

For questions 1–20, choose ONE best answer and shade A, B, C, D or E on the separate ZipGrade answer sheet. Do not write MCQ answers on this question paper. Check the question numbers carefully. Fill in your name and group (Period). Select Version A if using that field. Write the essay on the separate double-sided essay sheet. Mark your research participation choice before starting the test.

Vocabulary and collocations · 1–8

Essay · about 250 words

Choose ONE topic. Write about 250 words (recommended range: 225–275). Consider both perspectives, support your ideas with examples and give a reasoned conclusion. Use your own words. Do not use AI or copy task sentences or the reading preview. General or invented examples are welcome; personal disclosure is not required. Use vocabulary and grammar constructions studied in your group, naturally and appropriately.

1. Our roots influence who we are, but they should not determine who we become. To what extent do you agree?

2. The benefits of DNA ancestry testing outweigh the risks to personal privacy. Discuss both perspectives.

3. Traditions must change in order to survive. To what extent do you agree?

4. A sense of belonging depends more on shared experiences than on biological ancestry. Discuss both perspectives.

Write your essay on the separate essay sheet. Only the research participation box may be filled in on this question paper; use ZipGrade for answers 1–20.
